Comment : With the technologies available today, I believe the requirement for morse code should be dropped. I have been a Licensed Amateur Radio Operator for more than 20 years and all my testing has been before the FCC. I have never tested in a VE testing session I DO NOT agree with grandfathering No Code Tech Class Licensees to General though! If you do, then you need to grandfather all the General Class Licensees that have been licensed Amateurs for more than 20 years to either Advanced or Extra Class. This should be automatic and not have to file a Form 610.
